Jimmy,

Thank you and Aaron for following up on the action item to request an extension of the deadline for submitting the scope of work for Section 6. However, while the content of the memorandum attached to your email is correct, it needs to be from you to me and Steve Chang. As stated in the AOC Section 8(a)(i):

"If at any time during the implementation of the SOW, Navy and DLA identify a need for a compliance date modification or modification of the Work in the SOW, Navy and DLA shall submit a memorandum documenting the need for the modification to the Project Coordinators of the Regulatory Agencies. The Project Coordinators of the Regulatory Agencies will determine if the modification is warranted and will provide written approval or disapproval."

Therefore, can you revise the memorandum that was attached to the email to have it be from you and to Steve Chang and me?

We will respond promptly to approve the modification.
